Mark

Respecting Karl's furlough schedule, I am forwarding this info to you. The attachments are notices issued by Republic to residents in a one mile radius offering off site housing during construction events. It is anticipated the odor levels in the area will rise during this construction. MDNR did tell us of the possibility during our call yesterday but did not have a release date which apparently was today. We can follow up with Karl tomorrow as appropriate.

BRIDGETON LANDFILL ANNOUNCES TEMPORARY HOUSING PLAN

During Reinforced Concrete Pipe Abandonment Project, Local Residents Living Within a Mile of the Landfill May Choose to Stay In Alternative Housing

BRIDGETON, MO (May 7, 2012) – Today, Bridgeton Landfill LLC announced that it will provide residents of Spanish Village, the Terrisan Reste Mobile Home Community and a section of the Carrollton Village Condominiums with temporary alternative housing should individuals and families decide to leave their homes during the upcoming the Reinforced Concrete Pipe (RCP) Abandonment Project.

Tim Trost, Area President for Republic Services, Inc., the parent company of Bridgeton Landfill LLC., said, “We want to be a good neighbor to those around us. That is why we have volunteered to cover the costs of temporary housing for residents who may be impacted by the odor coming from the RCP Abandonment Project and it is also why we have invested over \$20 million to make improvements on a closed landfill.”

The RCP Abandonment Project is expected to start on Monday, May 20 and conclude on Friday, June 14. This phase of work focuses on eliminating odor conduits created by reinforced concrete pipes. It will also make the site safer for all onsite workers, and must be completed to prepare the landfill surface for an additional plastic cap on the south quarry.

This intensive work requires excavating small sections of the landfill to remove reinforced concrete pipe sections. As a result, this work may increase the odor for local businesses and residents. The Bridgeton Landfill team is taking action to reduce and mitigate the odor that may come from this phase. The team is executing a 104-page plan that minimizes excavation and involves installing misting systems to deodorize the landfill odor. In addition, ongoing air monitoring will be continued both on and off site during this work to ensure that the air is safe to breathe for employees and local residents.

The landfill informed local residents about the Program today by going door-to-door and providing individuals and families with a letter describing the Program as well as the Lodging Program Agreement form.

For the approximately 270 households in the area, Bridgeton Landfill’s temporary housing program will be administered by the Development Resource Partners, LLC, (DRP) a St. Louis business with expertise in short-term relocation.

Under this Program, the landfill will pay for the nightly hotel lodging, fees, and taxes for local residents starting on Sunday, May 19 and continuing through the completion of the RCP Project. Residents will be provided rooms with kitchenettes. In addition, there are a number of pet-friendly hotels participating in this Program and the landfill will cover hotel pet fees.

Residents can choose if and when they decide to participate in the temporary housing program during the RCP Project. All those participating will receive three days advance notice prior to the end of the Project so they can begin planning to return home.

Throughout the next phase of improvements, residents are encouraged to call Bridgeton's toll-free hotline, 1-855-807-2387 or visit our website, www.BridgetonLandfill.com, to stay apprised of the latest developments.

###

Dear Neighbor,

The Bridgeton Landfill would like to offer you temporary alternative housing at an extended-stay hotel during the next phase of landfill improvements. This is a voluntary program and is being offered to residents of the Spanish Village, the Terrisan Reste Mobile Home Community, and certain residents of the Carrollton Village Condominiums. Here's how the Lodging Program works:

- Beginning on Sunday, May 19, 2013, the Company will pay for nightly hotel lodging fees and taxes at an extended stay hotel selected by the Company. The Company will pay those fees on your behalf directly to the hotel for the duration of the Company's upcoming RCP Abandonment Project. The Project is expected to last from May 20 to June 14, 2013, but those dates are subject to change and the Project may conclude earlier or later than expected.
- If you would prefer to stay with a friend or relative instead, the Company will offer you an inconvenience payment of \$125 per week for the time that you stay with that friend or relative.
- Many of the hotels in the Program allow for pets, and any hotel pet fees are covered under the Program.
- Living expenses, including any expenses for food, transportation, or entertainment, are not part of the Program. You will be responsible for all such expenses. All of the hotels in the Program have kitchenettes.
- The Lodging Program will be administered by Development Resource Partners, LLC (DRP), a St. Louis business with expertise in short-term relocation. **To sign up for the Program, complete the attached one-page Lodging Program Agreement and return it to DRP (instructions attached). Questions? Call DRP at 314-395-9905 (Jennifer Kaniecki at Ext 3 or Kurt Schulte at Ext 6).**
- The Company will give you at least three (3) days of notice before ending the Program.

Once the RCP Abandonment Project is complete, you should notice a reduction in the landfill odor.

Throughout the Project, you are encouraged to call Bridgeton's toll-free hotline, 1-855-807-2387 or visit our website, www.BridgetonLandfill.com, to stay apprised of the latest developments. All questions about the Lodging Program should be directed to DRP at 314-395-9905.

Sincerely,

Tim Trost
Area President
